- ACCOUNTING:

Finances—Accountant Brooks not present—no financials provided

Warrants—No discussion

- CHIEF’S REPORT:
- 

Chief Tom Webb reported there have been a lot of applications for building permits in the area affected by the Cascade Fire—water tanks, roads, etc. He also stated that Engine 61 needs an alignment service (uneven wear). Chief Webb informed the Board that the Amador Contract will be ending mid-April, and therefore should be far less than the contract amount.

- VOLUNTEER’S REPORT:
- 

Volunteer Leno Mota reported that due to training, only 2 volunteers participated in the Bok Kai parade, and since they were each driving vehicles, they were not able to hand out as much candy as usual. Volunteer Mota will contact the other volunteers to discuss a date for the volunteer appreciation BBQ/awards, but was asked to keep in mind that April 28th is the open house at Beale AFB—the first in several years—and many may be attending that event.

- GENERAL MANAGER’S REPORT:
- 

GM Poggi informed the Board that for this Election Year, 4 year terms are up for re-election for Biggs, Kinkle, and Duckels. (Note: After the meeting, it was determined that the filing dates are July 16-August 10, 2018. And the County Elections Office stated there is no filing fee for us.)

- GM Poggi is working on determining the requirements for policy and training for workplace violence prevention, sexual harassment, and ethics, as may be required by the State.
• **STATION #63 Intent to award building of Station #63:**

  - Frank Webb Construction was the lowest responsive bidder, per AEC. However, at a bid price of $2,002,590, it is well over the amount budgeted by the Board. Frank Webb and Dean Webb of Frank Webb Construction addressed the Board and stated their legal counsel indicated that we could still proceed with the project by awarding an “Intent to Build.” Public Barry Taylor asked to speak and recommended that the District complete the grading, a metal garage to store a water tender/engine, and water storage tanks with the intent for future expansion, and that the District negotiates with the County on landscaping and septic requirements. Director Poggi said that the District must determine if it is legal to negotiate with Frank Webb Construction to reduce the scope of the project to fit the District’s budget. Discussion on the Frank Webb Construction “Intent to Build” tabled until legal counsel has reviewed the situation.

  - Chief Webb has contacted Bi-County Ambulance about leasing a portion of their new site at the old MacLeod Realty site on Marysville Road. They discussed having Bi-County build a garage so that it would not be under the essential services building requirements. In his conversations with ISO, all that is needed is an apparatus that can pump 250 gallons to qualify a building as a station. The cost of a lease with Bi-County has not yet been determined.

  - Chief Webb informed the Board of a property for sale at 6798 Penny Way that he feels could be developed as a new station.

• **STATION #63 Results of meeting with County Planning and Building Depts in reference to permits:**

  - Chief Tom Webb informed the Board that the County said they would try to work with the District to keep the permits and CUP active for an indefinite period of time. The County also indicated they would assist the District in finding an inspector of record, and that they would support a zoning change if the District needed to obtain a different parcel for Station #63.

• **BOARD AND STAFF MEMBERS’ REPORTS:**

  - Director Biggs informed the Board of the upcoming JPA meeting, Wednesday March 28 at 7pm at Foothill Fire in Brownsville. Director Biggs also informed the Board of the letter received from CalFire ECC Chief Tom Person regarding interfering actions taken by Smartsville Fire Chief Marc Zamora after the JPA voted to tone out Bi-County on Foothill Fire Net.

  Discussion from GRA on scaling down building of Station #63—did not hear back from GRA

  Discussion from meeting with County on scaling down building of Station #63: Per Chairperson Kattuah, she, GM Poggi, and Chief Webb met with members of the Yuba County Planning Department to discuss scaling down the project for Station #63 to fit the District’s budget. Chairperson Kattuah informed the County that the District would like to proceed with grading, erect a metal building to store fire apparatus only, and water tank(s) to fill apparatus to fight fires. The County stated the District could proceed with the scaled-down project; however they do want to review the plans first. The Board will need to contact the County to request that the District wishes to change the property to a public facility, then the CUP (Conditional Use Permit) requirements will no longer apply.

  Second: Duckels
  Motion carried

10. DISCUSS AND APPROVE:

  A  Proposal from GRA (Architect) to redraw plans for Station #63:
    •
    We need to clarify if the District owns the plans or if the Architect owns them? Since the new structural calculations will be provided by the metal building company, why are GRAs proposed fees so high?
    •
  B  Proposal from AEC (Construction Management) for amended Station #63 bid
    •
    General Manager to schedule a meeting with Yuba County to determine if the District can proceed using the existing building permit or if a new permit will be required due to the changes in the structural calculations for the (smaller) metal building. Chief Webb recommended those in attendance at the previous county meeting on April 13, 2018 also attend this meeting for continuity, and also GRA should attend.
    •
    Tabled Items 10 A & 10 B until after meeting with Yuba County

11. CHIEF’S REPORT:

  Chief Webb stated personnel have been busy with small fires in the area. He informed the Board that many homeowners affected by the Cascade Fire have obtained permits from the County to rebuild. Chief Webb has found a new mechanic out of Hallwood, which will be much more convenient. The
District has applied for a VFA (Volunteer Fire Assistance) grant for turnouts and one radio, but we won’t hear back for another month or two of the grant request was approved. The Yuba Watershed Protection and Fire Safe Council recently held a wildfire preparedness meeting at the station which was well-attended by the public. Chief Webb ended his report stating that Yuba county officials are still working on the sales tax issue to fund public safety.

12. VOLUNTEER’S REPORT:

Volunteer Tully is now an EMR (Emergency Medical Responder) and has obtained his endorsement to drive the engines.

13. GENERAL MANAGER’S REPORT:
The filing period to submit papers to run for open District Board Seats is July 16, 2018 through August 10, 2018. Three open seats are: Biggs, Duckels, and Kinkle. Director Duckels was requested to verify with County Counsel that it will not be a conflict of interest for him to have a seat on the District’s Board of Directors now that he is the Assessor-Elect for Yuba County.

14. BOARD AND STAFF MEMBEERS’ REPORTS:

Director Biggs reminded the Board of the upcoming JPA meeting on Wednesday, June 27, 2018 at 7pm in Camptonville.

Director Poggi reminded the Board that it is generally considered good practice to complete a mitigation study at a minimum of every 10 years and that the District’s current mitigation study was completed 10 years ago. This would require a Request For Proposals to hire a consultant to complete the study.

ACCOUNTING:

Finances—it was questioned where the assessments refunded were reflected on the Statement of Revenue and Expenses, and former Accountant Brooks stated a new category was created to show the refunds. She also advised the Board that a CPA is not required to do the District’s financial records, but recommended using something who is an Enrolled Agent for tax purposes.

Warrants—no discussion; note that printer was down and warrants had to be handwritten.

CHIEF’S REPORT:

“Updated” CalFire Operating Plan: Chief Webb reported that changes were made in the Assistance by Hire Agreement, the most significant being that CalFire will no longer pay for water tenders, equipment, or personnel for response within the District.

Update on Yuba County's proposed Safety Tax (Measure K): CalFire Division Chief Jim Mathias informed the Board of County staff’s latest recommendation to the Board of Supervisors, with only 17.6% proposed for the fire departments. He stated that District 5 Supervisor Randy Fletcher recommended that the fire districts arrive at a specific dollar amount to support any request for a higher percentage. Chief Mathias said that
Supervisor Fletcher also wants a letter of support from the District’s Board of Directors. No action can be taken as the matter was not on the Agenda.

- Chief Webb stated that the District had a good month for rental income of Engine 61B. Engine 62 is due for repairs, has pump issues that are hopefully under warranty, and also needs new rear tires. He also stated the SCBAs have arrived, but are not yet in service. The new extractor will be in by the end of the month.

- Chief Mathias informed the Board that Governor Brown has extended Level 4 staffing until December 31st, keeping two engines at Station 61, and that we will not enter the Amador Contract period until January 1, 2019. He also said that there is now a helicopter at the Grass Valley air attack base, a Sikorsky Black Hawk, for use within the NEU District.
